This form must be completed by the seller, who is required to specify the breakdown of THEIR percentage owned at the time of sale before any interest will be transferred on a registered Red Angus animal in the National Office.

ALL owners, including any retained ownership by seller must be listed on the form with their percentage of ownership. Percent owned should NOT be listed as a fraction to avoid possible issues with rounding. If fractions are listed, RAAA staff will adjust accordingly. For questions regarding the percentage of ownership transferred, please contact seller.

Association regulations require all bulls used in artificial insemination (AI) and all parents that are being used for embryo transplants (ET) must have DNA parentage on file at the RAAA National Office. Parent verification is required to the extent that parent(s) are on file.

All AI/ET parents whose pedigree contains a carrier of OS, CA, AM, NH, MA or DD without an intervening tested free animal, must be tested to determine if the animal is a carrier, or free of the respective genetic defect.

If ownership consists of more than eight, use multiple copies of this form to record all owners.
