IMI GLOBAL RANCH VERIFICATION RENEWAL

OFFICIAL DOCUMENT

Farm/Ranch Name:
Primary Contact:

Please complete if any of your contact info has changed since your last verification:

Phone			Cell Phone		
Email			Fax		
Mailing Address			Physical Address		
Address			Address		
City	State	Zip	City	State	Zip
USDA Premise ID (optional):					

Programs you want to apply for this year:

Non-Hormone Treated Cattle (NHTC)	Verified Natural Beef (VNB)	BeefCARE*
Verified Grass-fed*	Non-GMO Project Compliance*	Certified Organic
BQA Verified (attach your current BQA Certificate)		Other: _____
<small>*Please complete Addendum for this program</small>		

Do you have a Ranch Manual on hand (2020 version)? YES NO

SOURCE VERIFICATION

To qualify for the Source claim the cattle to enroll must have been born and raised on your operation. Calving records must be kept showing the first and last calf born for each season. Head count support must be available to show cow numbers that meet or exceed the number of head to enroll (ex. Preg. check numbers, inventories, calving book data, vaccine receipts, etc.).

Please provide the following details regarding your calving season(s).

First calf must be the actual first calf born, not an estimation based on bull turnout, or other ranch activity. A branding, processing, or weaning date may be used for the last calf born date. If your operation does not pull bulls out and calves year-round, all calves must have individual ID and dates of birth.

Calving Group Name	Date of First Calf Born	Date of Last Calf Born	Approx. # Calves
<i>Example: Spring 2017</i>	<i>1/15/2017</i>	<i>3/25/2017</i>	<i>200hd.</i>

OR: Year Round Calving: _____ #hd. born/year

What is the estimated shipping date: _____

Do you purchase and/or manage any other cattle? (check all that apply)

- | | | |
|--|--|--------------------------------------|
| <input type="checkbox"/> Neighbor's Calves | <input type="checkbox"/> Yearlings/Stockers | <input type="checkbox"/> Other _____ |
| <input type="checkbox"/> Pairs | <input type="checkbox"/> Custom Calving Custom | <input type="checkbox"/> None |
| <input type="checkbox"/> Graft Calves | <input type="checkbox"/> Grower | |

If yes to any of the above, describe how these cattle are identified differently from your home-raised calves:

List all locations where cattle have been or will be located this year. If cattle move anytime throughout the year to a location outside of your day to day management, please detail the location and how it is managed.

LEFTOVER TAGS

If you have any leftover EID tags that you intend to use on this group of calves, please list EIDs here:(attach additional pages if necessary)

****It is critical that leftover tags are reported to IMI Global prior to cattle shipping. Leftover tags that are reused in another group of calves may cause them to be disqualified if not reported prior to the cattle shipping.**

FEED LIST

Please list all feeds used at the operation and their source (include all hay, supplements, minerals, salt, etc.)

To make sure there are no HGPs in the feed, the ranch must have a NHTC Letter of Guarantee from the manufacturer to ensure there was no cross-contamination during manufacturing. IMI Global will help you acquire feed letters from the manufacturer if you don't already have them. If a feed product is approved under IMI Global's Feed Verified program or on the OMRI (Organic Materials Review Institute) list for livestock feed, we have a NHTC Letter of Guarantee on file and will send you a copy.

For VNB cattle, IMI Global must also verify a label for each feed product showing the ingredients. The ranch must keep records of all feed products (the list below can serve as this record) for the verifier to check onsite.

Complete for ALL program Enrollment			Complete for GRASS FED, VEG FED and/or NON-GMO COMPLIANT				
Feedstuff	Source (i.e., home-raised manufacturer*) * label and letter must be on file	Animals Fed To (i.e., cows, pairs, bulls, weaned calves, replacements)	Date Feeding Began	Date Feeding Ended	Estimated LBS. Fed Per Day	Weaning Date (if applicable)	Length of Time Fed Post-Wean (if applicable)

NEW in 2022: The NHTC program now requires that ranches and farms have a consulting veterinarian who makes at least one annual visit to the ranch. Please indicate the name, address and phone number of the consulting veterinarian clinic.

Which of the following activities is the consulting veterinarian/vet clinic customarily on-site (Records or a veterinarian statement to verify 2022 on-site visit required no later than 2023 renewal). Select all that apply

- Bangs Vaccination AI'ing Preg Check Calving Assistance (C Section) Branding Assistance
